

PCI Live Case Transmission

11/4

13:00-16:00

[PCI Live Case Transmission 11·12 – CTO Course “Antegrade Summit”](#)

Main Theater
Kobe International Exhibition Hall 2

 English translation available

[PCI Live Case Transmission 11](#)

Chair(s): Yasushi Asakura, Kinzo Ueda

Discussor(s): Osamu Katoh, Wataru Nagamatsu, Yuji Oikawa, Satoru Tohara

Lecturer(s):

Lecture on

What should we learn from pathological findings for antegrade approach? – microvascular channels, loose tissue or something else? :

Gaku Nakazawa

How should we improve the traditional antegrade approach for the next step? – insight from 3D-IVUS :

Kenya Nasu

What's our mistakes in developing antegrade techniques? – simplified way or elaborate way? :

Osamu Katoh

[PCI Live Case Transmission 12](#)

Chair(s): Eisho Kyo, Yoshinori Yasaka

Discussor(s): Osamu Katoh, Sum Kin Leung, Kenya Nasu, Satoru Otsuji, Gerald S. Werner, Ryohei Yoshikawa

Lecturer(s):

Lecture on

IVUS findings indicating limitations of re-entry mechanism

Scott Andrew Harding

Mechanisms and limitations of re-entry – Is there any role for new re-entry devices or techniques in evolving the antegrade approach to CTOs? :

Eisho Kyo

Further evolution of antegrade approach – What are requirements for the next step? :

Masahisa Yamane
