I would like to greet you on behalf of CCT 2013 peripheral course directors.

In recent years, I feel that the field of endovascular treatment (EVT) in Japan has accomplished a giant leap. The reason for this is that the devices for peripheral intervention have rapidly progressed while the large amount of cardiologists who have acquired the technique of Percutaneous Coronary Intervention (PCI) have converted themselves to peripheral intervention area. In addition to the conventional 0.035 and 0.018 inches wire system, the introduction of the 0.014 inches wire system used in PCI to EVT has enabled us to use new techniques such as Trans-Collateral Angioplasty (TCA), direct superficial femoral artery puncture, biliary puncture and so on. The standardization of EVT strategy in consideration of the peculiarity of blood vessel treatment has surely advanced, too. Based on this, the success rate of EVT regarding Transatlantic Inter-Society Consensus (TASC) D lesions in iliac, arteries and superficial femoral arteries (SFA) is close to almost 100 percent in many cath-labs in Japan. The introduction of new devices such as Drug-eluting balloon (DEB) and debulking devices are definitely in demand in order to improve the long-term results of EVT for PAD patients.

In CCT2013 Peripheral, the best of the best Japanese operators will be in charge of the EVT Live Course for two days for the further spread and development of the EVT techniques. We will offer the latest information from the foreign countries in the Fireside Seminars and Luncheon Seminars. Moreover, we plan to have a lot of Morning Seminars for the physicians who want to start the peripheral artery treatment from now and those who want to improve their techniques in order to adapt their interventional skill to more difficult cases.

We are looking forward to a lot of physicians participating in CCT2013 Peripheral (October 17-19, 2013) and being able to experience the progress of endovascular therapy for peripheral vascular disease.

CCT2013 Representative Peripheral Course Director
Kazushi Urasawa
Kobe International Exhibition Hall

**Venue**

**Kobe International Exhibition Hall**

**3F**
- Hall 1
- Hall 2

**Language**
- The English language shall be the official language of CCT.
- Simultaneous interpretation is available (English and Japanese): Themed Theater, Room 6, Room 8, Peripheral Theater
- Simultaneous interpretation is available (English, Japanese, and Chinese): Coronary Theater, Room 3

**Notification**
- No smoking on all site.
- No photography and video shooting without permission.

**Food and Beverages**
- Coffee service will be offered at Kobe International Exhibition Hall 1, 1F and Hall 3 (Service time is limited)
- Light meals will be served before morning session and fireside session.
- Lunch boxes will be served before luncheon seminar.

**Registration Fee**
- By August 31
- From September 1
- Medical 3 Days: JPY 25,000
- Medical 1 Day: JPY 15,000
- Medical (intern)* 3 Days: JPY 10,000
- Co-medical 3 Days: JPY 2,000
- Industrial Professional 3 Days: JPY 25,000

* Medical (intern) is required to present certification showing they are currently in the internship (4 years period) after graduation from medical school. Failure to do this will be charged the on-site registration fee of Medical. Pre-registration is not required.

**A student can attend the live course free of charge. Please present your student ID or equivalent documents at the on-site registration desk. Pre-registration is not required.**

Friday, October 18

Peripheral Theater

Morning Session

8:00-8:30 SFA-CTOの開け方

座長 緒方 信彦
演者 中村  茂

EVT Live Case Transmission

Saiseikai Yokohama-City Eastern Hospital
Operators Kelsuke Hirano, Akira Miyamoto, Taketugu Tsuchiya

Toyohashi Heart Center
Operators Yoshihisa Kinoshita, Tetsuo Matsubara, Yasuhiro Oba

8:30-10:00 EVT Live Case Transmission 5
Chair Kazushi Urasawa
Commentators Hiroshi Ando, Marco Manzi, Tomoyasu Sato, Yoshimitsu Soga, Yuichi Ujike, Yoshihito Yamamoto,
Bryan Yan (The Chinese University of Hong Kong)

Flash presentation 8
Various distal puncture methods for CLI cases
Hiroshi Ando

8:30-10:00 <Featured Live>
Co-sponsored byJapan Lifeline Co., Ltd.

10:00-11:30 EVT Live Case Transmission 6
Chairs Masato Nakamura, Seung-Woon Rha
Commentators Donghoon Choe, Masahiko Fujimura, Michiaki Higashitani,
Daizo Kawasaki, Ryoji Koshiba, Tadayo Sato, Yoshihiko Shirazaki

Flash presentation 9
Omote-pun (Front puncture): Technical update
Ryoi Koshiba

10:00-11:30 <Featured Live>
Co-sponsored byMedtronic Japan Co., Ltd.

Luncheon Seminar
12:30-13:30
Co-sponsored byAbbott Vascular Japan Co., Ltd.

EVT Live Case Transmission

Saiseikai Yokohama-City Eastern Hospital
Operators Kelsuke Hirano, Akira Miyamoto, Taketugu Tsuchiya

Toyohashi Heart Center
Operators Yoshihisa Kinoshita, Tetsuo Matsubara, Yasuhiro Oba

14:00-16:00 EVT Live Case Transmission 7
Chairs Yusuke Miyashita, Osami Kawanada
Commentators Michiaki Higashitani, Felsen-Li Kao, Katsumi Kawaguchi,
Yoichi Nozaki, Noriko Shinozaki, Kenji Suzuki

Flash presentation 11
Renal stenting - Update -
Yusuke Miyashita

Flash presentation 12
EVT strategies for aorto-iliac CTO
Kenji Suzuki

14:00-16:00 <Featured Live>
Co-sponsored byTERUMO CORPORATION

16:00-18:00 EVT Live Case Transmission 8
Chairs Hiroshi Ando, Naoto Inoue, Bryan Yan (The Chinese University of Hong Kong)
Commentators Max Amor, Tsuyoshi Goto, Katsumi Sato, Makoto Utsunomiya,
Takemho Yamasita

Flash presentation 13
Indication for renal artery stenting
Takemho Yamasita

Flash presentation 14
Proximal protection system for CAS
TBA

Fireside Session
18:00-19:00
Co-sponsored byVolcano Japan Co., Ltd.
Room 11

Morning Session
8:00-8:30 急性下肢動脈閉塞の治療法
座長 安齋 均
演者 浦澤 一史

Luncheon Seminar
12:30-13:30 Co-sponsored by MEDICO’S HIRATA INC. | Cook Japan Incorporated

Room 12

Morning Session
8:00-8:30 CLI症例に対する集学的治療システムの構築方法
座長 清野 義胤
演者 佐藤 勝彦

Luncheon Seminar
12:30-13:30 Co-sponsored by Medicon Inc.

Case Competition
14:00-15:30 Oral Presentation 1
Chairs Hirotshi Ando, Shigeru Nakamura
Endovascular therapy for the patient with Leriche syndrome
Tasuku Higashihirari (Akane Foundation Tsuchiya General Hospital, Japan)
Cases of type B aortic dissection treated with or without TEVAR
Akiyoshi Tanaka (Kagawa Tokushu-ka General Hospital, Japan)
Chimney Aortic Stent Graft with renal, iliac artery stenting for complicated type B aortic dissection and malperfusion syndrome
Han Choeil Lee (Pusan National University Hospital, Korea)
Endovascular treatment of complicated type B aortic dissection and malperfusion syndrome in the distal aorta through the brachial approach
Jin Sup Park (Pusan National University Hospital, Korea)
7 French Sheathless Transradial Renal Artery Intervention
Omar M Salleh (Kaohsiung Chang Gung Memorial Hospital, Taiwan R.O.C.)

Room 13

Morning Session
8:00-8:30 MDCT・MRAをEVTに生かす
座長 原田 敬
演者 越田 壽司

Luncheon Seminar
12:30-13:30 Co-sponsored by Johnson & Johnson K.K.
Poster Booth

Poster Session

11:30-12:30 Group 1

Chair
Hitoshi Anzai

P-01 Safety and Efficacy of Renal Sympathetic Denervation in Severe Resistant Hypertension among Asians
Chee Chin (National Heart Centre, Singapore)

P-02 Successful angioplasty with retrograde direct superficial femoral artery (SFA) puncture after failed bidirectional approach in chronic femoral artery occlusion
Taku Iwaki (Yokohama Sakae Kyoai Hospital, Japan)

P-03 Successful endovascular therapy with the idea of five-stage rocket system for chronic total occlusion with severe calcified plaque
Takuya Haraguchi (Chidoribashi General Hospital, Japan)

P-04 Predictors and clinical impact of repeat intervention for infra-popliteal lesion of patients with critical limb ischemia
Makoto Utsunomiya (Tokyo Rosai Hospital, Japan)

P-05 Percutaneous Transluminal Angioplasty and stenting for Hepatic Vessel Stenosis After Orthotopic Liver Transplantation
Fu-Chung Chen (Show Chwan Memorial Hospital, Taiwan R.O.C.)

P-06 Percutaneous Transluminal Angioplasty and stenting for Hepatic Vessel Stenosis After Orthotopic Liver Transplantation
Fu-Chung Chen (Show Chwan Memorial Hospital, Taiwan R.O.C.)

P-07 Gender Differences in the Long-term Outcomes of Infrapopliteal Arterial Revascularization: Retrospective Multicenter Analysis
Kei Ichihashi (Kokura Memorial Hospital, Japan)

11:30-12:30 Group 2

Chair
Yoshimitsu Soga

P-08 A case of bilateral renal arteries stenosis treated by percutaneous transluminal renal angioplasty (PTRA) simultaneously
Junji Sakata (Shizuoka General Hospital, Japan)

P-09 A case of observation of the organized thrombus with angioscopy that couldn’t identify with IVUS
Takuya Shimizu (Tokyo Shinkokai Neurosurgical Hospital, Japan)

P-10 Clinical outcome and predictors after femoropopliteal stenting with self-expandable nitinol stent for critical limb ischemia
Yusuke Tomoi (Kokura Memorial Hospital, Japan)

P-11 A case of endovascular therapy for DFA occlusion after SFA in-stent restenosis
Mitsuharu Kano (Kumamoto Kosei Hospital, Japan)

P-12 Efficacy of stent placement versus balloon angioplasty in small vessel of femoropopliteal disease
Norihiro Kanno (Kokura Memorial Hospital, Japan)

P-13 A case of acute thrombosis during endovascular treatment
Yasuhiro Ogawa (Komaki City Hospital, Japan)

P-14 Midterm Clinical Outcomes of Endovascular Treatment in Patients with Complicated Type B Aortic Dissection and Malperfusion Syndrome
Han Cheol Lee (Pusan National University Hospital, Korea)

11:30-12:30 Group 3

Chair
Yoshito Yamamoto

P-15 Endovascular Aortic Repair of Ruptured Thoracic Aorta Pathology: Mid-term results from Single Center
Han Cheol Lee (Pusan National University Hospital, Korea)

P-16 Development of a Fenestrated Aortic Arch Stent Graft with Preloading Catheter to Protecting Branch Arteries
Han Cheol Lee (Pusan National University Hospital, Korea)

P-17 Effect and Safety of Adipose Tissue-derived Stem Cell Implantation in Critical Limb Ischemia
Jin Sup Park (Pusan National University Hospital, Korea)

P-18 Technique of Percutaneous direct needle puncture of calcified plaque (PIERCE) in superficial femoral and tibial arteries
Tomoyasu Satō (Tsuchiya general hospital, Japan)

P-19 3-D CT-angiography of the collateral vessels to assess the feasibility of TCA
Tomoconori Amário (Iji Takushukai Medical Center, Japan)

P-20 An Investigation of The Correct Size of Balloon for Percutaneous Transluminal Aortic Valvuloplasty
Shinya Hata (Tami Kajikai Hospital, Japan)

P-21 Impact of Vessel Size on Endovascular Therapy for Femoro-popliteal Lesions
Sekihiro Hiramori (Kokura Memorial Hospital, Japan)
Peripheral Theater

**Morning Session**

8:00-8:30  BTK-CTOの開け方
座長
井上 直人
演者
宮本 明

**Symposium**

8:30-10:00  I: Endovascular therapy for endo-stage renal disease
Chairs
Masato Nakamura, Shinsuke Nanto

How to perform Carbon Dioxide Angiography
Yutaka Koayama

Ultrasound guided endvascular therapy for femoropopliteal lesions
Masami Nishino

Pressure guided EVT
Hiroshi Fujita

EVT for ESRD patient with CLI
Akihisa Miyamoto

General Discussion

10:00-11:30  II: Japanese EVT: Current status and future prospect
Chairs
Naoto Inoue, Yoshiaki Yokoi

How to recanalize iliac CTO lesion
Kensuke Hirano

How to recanalize SFA-CTO lesion
Shigeru Nakamura

How to recanalize BTK/BTA-CTO lesions
Ryoji Koshida

New devices in peripheral intervention
Naoto Inoue

General Discussion

11:30-  Award Ceremony

Room 11

**Morning Session**

8:00-8:30  EVTに生かす超音波検査
座長
佐藤 匡也
演者
滝村 英幸

Room 12

**Morning Session**

8:00-8:30  下肢血管造影の基礎と応用
座長
丸本 義人
演者
藤原 昌彦

**Case Competition**

8:30-10:00  Oral Presentation 3
Chairs
Nobuhiko Ogata, Katsuhiko Sato

Total complete revascularization strategy for the femoral artery bifurcation lesion using retrograde approach by direct deep femoral artery puncture
Kohei Zeil (Omihachiman Community Medical Center, Japan)

Successful bailout case of acute thromboembolism to the deep femoral artery and F-F bypass graft just after Fogarty catheter thrombectomy in case of late Zilver-PTX stent thrombosis
Shinichiro Motoyama (Omihachiman Community Medical Center, Japan)

Transvenous IVUS-guided endovascular treatment using a modified sheath with a side-hole of very long-segment chronic total occlusion of the lower limb artery
Tatsuhiro Saito (The Fraternity Memorial Hospital, Japan)

Knuckle wire technique and TCA in SFA long CTO
Takahiro Yanagiuchi (Kyoto First Red Cross Hospital, Japan)

An SFA-CTO perforation case successfully bailed out by endovascular therapy
Takahiro Matsumoto (New Tokyo Hospital, Japan)

A Case: Progression to internal iliac artery dissection in one treatment for calcified severe stenosis and occlusion of common to external iliac artery
Yusuke Watanabe (New Tokyo Hospital, Japan)
10:00-11:30 **Oral Presentation 4**

**Chairs**
Takashi Harada, Osami Kawarada

**Angioplasty of ulnar artery chronic total occlusion to treat critical hand ischemia in patient with hemodialysis access**
Akiihiro Higashimori (Kishiwada Tokushukai Hospital, Japan)

**A EVT case for the fistula between the retroesophageal right subclavian artery and the reconstructed gastric tube after esophagectomy for esophageal cancer**
Yoshiaki Mibiki (Sendai City Hospital, Japan)

**Successful endovascular treatment for deep vein thrombosis failed to respond to initial thrombolytic therapy, a technical case report**
Yuya Nakagawa (Tokeidai Memorial Hospital, Japan)

**The case of successful hybrid revascularization therapy for chronic total occlusion after the iliac-popliteal artery bypass surgery**
Tetsuo Yamanaka (Sakakibara Heart Institute, Japan)

**Hybrid therapy for sub-acute occlusion of brachial artery**
Masayoshi Kimura (Kyoto First Red Cross Hospital, Japan)

**Difficult retrievals of the vena cava filter after 43-days implantation: A case of young female used Günther Tulip vena cava filter for Pulmonary thromboembolism**
Seita Kondo (University of Showa, Japan)

**Successful true lumen wiring using IVUS and 1.5mmJ alternately for Popliteal CTO**
Hiroshi Araki (Showa University Northern Yokohama Hospital, Japan)

---

**Morning Session**

8:00-8:30 **炭酸ガス造影**

**座長**
川﨑 友裕

**講演**
川﨑 大三
