

Rotablator™ Mastership Program

This training program consists of themed lectures from a team of highly experienced Rotablator operators, as well as case-centered discussions. The lectures provide guidance on applied techniques and troubleshooting, to help operators treat the more difficult cases encountered in actual clinical settings. Case discussions will serve to deepen participants' understanding as well as maximize the clinical essence of this mode of treatment. Actual Rotablaters and anatomical models will be provided for hands-on training.

▶ English Session Date

**November 1st (Sat),
10:30 ~ 12:00**

▶ Location

**Rotablator™ Mastership Program,
Floor 2, Kobe Portopia Hotel, Room Nojigiku**
