Thank you for reading this article again this year.

I am Yusuke Miyashita of Nagano Red Cross Hospital/Shinshu University Hospital, and I have been appointed as the Representative Course Director of CCT2025 Peripheral.

The COVID19 infection and the long-lasting recession in Japan continue to have an unfavorable impact on the field of cardiovascular intervention. However, under these unfavorable circumstances, CCT peripheral would like to continue to be a stage that provides dreams and strength to young and motivated interventionists. If you look at the executive committee and course directors, I am confident that you will understand that CCT2025 Peripheral will be a place where the highest quality peripheral intervention is provided in Japan.

The history of CCT is the history of highest-quality intervention in Japan. We hope that you will come to Kobe to share and be impressed by the techniques supported by history.

CCT2025 Representative Peripheral Course Director
Yusuke Miyashita, M.D.

Case Competition

9:00-10:00 Case Competition 1: Thrombotic Lesions

Chairs
Shigeru Nakamura, Yoshito Yamamoto

Commentators
Makoto Sugihara, Tatsuro Takei

Presenters
A Case of Chronic Limb-Threatening Ischemia with Large Amounts of Thrombus Treated by Percutaneous Fogarty? Thrombectomy
Motoaki Kai (Shonan Kamakura General Hospital, Japan)

A Case of Limb Salvage Using the Indigo System? for Acute Limb Ischemia Following Endovascular Therapy in a Patient with Advanced Chronic Limb-Threatening Ischemia
Hiroaki Nohara (Osaka Rosai Hospital, Japan)

Successful Limb Salvage in a Case of Popliteal Artery Occlusion Caused by Organized Thrombus
Takuya Tominaga (Higashi Takarazuka Satoh Hospital, Japan)

Evolution of revascularization strategies for acute lower limb ischemia with popliteal artery aneurysm at our institution
Hiroki Takenaka (Ota Memorial Hospital, Japan)

Trans-Ankle Intervention for Acute Limb Ischemia Caused by Femoralis Thromboembolism
Hiroto Kokubun (Shizuoka Medical Center, Japan)

A case of Viabahn stent-graft placement for occluded femoropopliteal bypass
Masaki Ono (Japanese Red Cross Wakayama Medical Center, Japan)

10:15-11:15 **Case Competition 2: CLTI**

Chairs

Nobuhito Kaneko, Taketsugu Tsuchiya

Commentators

Yoshihiro Iwasaki, Takenobu Shimada

Presenters

A case of chronic limb-threatening ischemia treated using various endovascular therapy techniques

Tomoya Fukagawa

(Saiseikai Yokohama City Eastern Hospital, Japan)

A case of revascularization for CLTI with SFA CTO without surgical options

Takahito Kohara (Tokushima Red Cross Hospital, Japan)

A case of CLTI in which a severely calcified SFA CTO was treated using Crosser iQ in the first session, followed by retrograde intraluminal tracking under antegrade IVUS guidance in the second session

Masanao Inoue (Asahi General Hospital, Japan)

Successful Revascularization of a Heavily Calcified Pedal Arch Using the WINNER Technique (Pedal Arch WINNER; PAW technique)

Keiichiro Shimazu

(Saiseikai Yokohama-city Eastern Hospital, Japan)

A Case of Chronic Total Occlusion of the Superficial Femoral Artery Following Femoro-Femoral Bypass with Careful Consideration of Access Site Selection

Tomonari Takagi (Takatsu General Hospital, Japan)

A case of lower limb arterial catheter treatment performed on a patient with a refractory skin ulcer on the left foot who had undergone multiple lower limb arterial bypass surgeries

Kotaro Matsumura

(Kumamoto Red Cross Hospital, Japan)

Chairs

Yo Iwata, Tatsuki Doijiri

Commentators

Akinori Sumiyoshi, Shigeyasu Tsuda

Presenters

Out of the Woods and into the Frying Pan: A Case of Access Site Complication after Successful Percutaneous Coronary Intervention with Stenting of a Chronic Total Occlusion of the Left Anterior Descending Artery

Alfred Matthew Dayo (Manilamed, Philippines)

Technical Management of SUPERA Stent Elongation due to Puncture: External Retrieval and Re-deployment

Hikaru Tanemura

(Shonan Kamakura General Hospital, Japan)

Emergent Surgical Conversion during endovascular procedure for Leriche's disease

Sehun Kim (Incheon Sejong Hospital, Korea)

Challenges in Hemostasis for Iatrogenic External Iliac Artery Injury

Shuhei Uchida (Kagoshima Tokushukai Hospital, Japan)

Two cases of effective hemostasis of common femoral artery puncture site with Double Perclose and additional Angioseal and hemostatic strategy of large caliber device in our hospital

Hirokazu Miyashita

(Shonan Kamakura General Hospital, Japan)

A Case of successful bailout for incomplete deployment of a self-expanding stent in the superficial femoral artery

Akihiro Tsuchiyama (Tokyo General Hospital, Japan)

15:30-16:30 Case Competition 4: New Technique

Chairs

Amane Kozuki, Michinao Tan

Commentators

Koji Kuroda, Takayoshi Toba

Presenters

Ultrasound-Guided Bamboo Spear Technique for Severely Calcified Lesion in the Proximal Superficial Femoral Artery: A Case Report
Yoshinori Sakamoto (Sagamihara Kyodo Hospital, Japan)

The Utility of HydroDynamic Contrast Recanalization (HDR) for Chronic Total Occlusion of the Superficial Femoral Artery
Toshihiro Hirai (JA Hokkaido Asahikawa Kosei General Hospital, Japan)

A Case of Severely Calcified Superficial Femoral Artery Chronic Total Occlusion Successfully Treated with JETSTREAM Atherectomy and Trans-Ankle Intervention
Kohei Yamaguchi (Saiseikai Yokohama City Eastern Hospital, Japan)

Successful Treatment of a Long Calcified Femoropopliteal CTO Using IVUS-Guided Wiring and Jetstream Atherectomy via Bidirectional Approach with Trans-Ankle Access Through an Occluded ATA
Toshiki Tsurumaki (Asahi General Hospital, Japan)

Overcoming Severe Calcification with the FRAP-cross Technique - Fracking and Rendezvous PIERCE for Intracalcium CROSS
Ricky Wang-hei Leung (Queen Mary Hospital, Hong Kong)

A case of IVUS-guided revascularization from the occluded anterior tibial artery for chronic total occlusion of the femoral artery
Hiromi Miwa (Tokyo Metropolitan Tama Medical Center, Japan)

16:45-17:45 Case Competition 5: PAD, Others

Chairs

Yutaka Dannoura, Akira Miyamoto

Commentators

Eiji Karashima, Shinya Sasaki
